TEL AVIV, Israel & NEW YORK--(BUSINESS WIRE)--Oct. 26, 2021-- Perion Network Ltd. (NASDAQ: PERI), a global advertising technology company that delivers a holistic solution across the three main pillars of digital advertising – ad search, social media, and display / video / CTV advertising – today announced financial results for the third quarter ended September 30, 2021.

Doron Gerstel, Perion's CEO, commented, "During the first nine months of the year our display advertising generated more than \$165 million of revenues, exceeding the \$149 million generated for all of 2020. Driven by the capabilities of our iHub to create unprecedented advertising efficiencies, our average deal size expanded by 30%, as budgets moved to our breakthrough high-impact, creatively led formats especially for Video and CTV. In recognition of the growing demand for video advertising, we made the accretive acquisition of Vidazoo, a leading video tech platform. By combining Perion's proven, high-impact video suite and Vidazoo's unique online video player, we can offer a proprietary, end-to-end video solution that extends the efficiency of our iHub, and that meets the needs of publishers for simple, highly scalable, plug-and-play video solutions."

Third Quarter 2021 Highlights

- Display advertising revenues growth of 82% (or 73% on pro forma basis), driven by accelerating adoption of Perion's video and CTV solutions, leading to an increase of average client spend by 30% and a 12% increase in number of clients;
- Search advertising revenues growth of 14%, primarily driven by an increased number of monetized searches;
- EBITDA margin of 37% excluding traffic acquisitions costs compared to 26% during the third quarter of 2020, partially resulted from the implementation of Perion's iHub that provides higher costs efficiencies;
- Net cash provided by operating activities of \$14.2 million; Perion had \$156.2 million in cash and zero debt as of September 30, 2021;
- Video and CTV grew by 245% year-over-year, representing 20% of the Display advertising revenues.

Perion achieves this through its Synchronized Digital Branding capabilities, which are focused on high impact creative; content monetization; its branded search network, in partnership with Microsoft Bing; and social media management that orchestrates and optimizes paid advertising. This diversification positions Perion for growth as budgets shift across categories.

Non-GAAP Measures

Non-GAAP financial measures consist of GAAP financial measures adjusted to exclude stock-based compensation expenses, retention and acquisition related expenses, revaluation of acquisition related contingent consideration, amortization of acquired intangible assets and the related taxes thereon, non-recurring expenses, foreign exchange gains (losses) associated with ASC-842, as well as certain accounting entries under the business combination accounting rules that require us to recognize a legal performance obligation related to revenue arrangements of an acquired entity based on its fair value at the date of acquisition. Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization ("Adjusted EBITDA") is defined as operating income excluding stock-based compensation expenses, depreciation, restructuring costs, acquisition related items consisting of amortization of intangible assets and goodwill and intangible asset impairments, acquisition related expenses, gains and losses recognized on changes in the fair value of contingent consideration arrangements and certain accounting entries under the business combination accounting rules that require us to recognize a legal performance obligation related to revenue arrangements of an acquired entity based on its fair value at the date of acquisition.

The purpose of such adjustments is to give an indication of our performance exclusive of non-cash charges and other items that are considered by management to be outside of our core operating results. These non-GAAP measures are among the primary factors management uses in planning for and forecasting future periods. Furthermore, the non-GAAP measures are regularly used internally to understand, manage and evaluate our business and make operating decisions, and we believe that they are useful to investors as a consistent and comparable measure of the ongoing performance of our business. However, our non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures, and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. Additionally, these non-GAAP financial measures may differ materially from the non-GAAP financial measures used by other companies. Due to the high variability and difficulty in making accurate forecasts and projections of some of the information excluded from these projected measures, together with some of the excluded information not being ascertainable or accessible, we are unable to quantify certain amounts that would be required for such presentation without unreasonable effort. Consequently, no reconciliation of the forward-looking non-GAAP financial measures is included. A reconciliation between results on a GAAP and non-GAAP basis is provided in the last table of this press release.
